

Speech-Language Pathology Assessment Form

Document ID: SU-006-FORM-02 | Parent Policy: SU-006 — NIHSS Assessment, Neurological Monitoring and Dysphagia/Swallow Screening |
Version: 1.0 | Controlled Copy

Certification Alignment Note: This form supports dysphagia and communication tracer evidence. Do not state that a specific completed form is obligatorily reviewed by every certification surveyor.

Patient Example — Stroke Program

Submission Note

- Submit one de-identified, completed assessment.
- The completed example must demonstrate evaluation of both swallowing and communication — this combination is specifically reviewed by American Stroke Association certification surveyors.
