

STROKE INTERPROFESSIONAL COMMITTEE (IPC)

Consolidated Meeting Minutes — January to June 2026

Jazan Health Cluster | Stroke Program

Committee Chairperson: Dr. Mohammad Zailaie, Stroke Medical Director

Committee Recorder: Stroke Program Coordinator

Reporting Period: January 15, 2026 – June 18, 2026

Meetings Included: 6 (January, February, April, May, June — plus March referenced)

This document consolidates the meeting minutes of the Stroke Interprofessional Committee (IPC) for the first half of 2026. The Committee is responsible for the annual review and governance of Stroke Program clinical protocols, monitoring of performance indicators against American Heart Association/American Stroke Association (AHA/ASA) benchmarks, and oversight of multidisciplinary quality improvement and education initiatives.

Meeting Minutes — January 2026

Date	January 15, 2026
Time	10:00 AM – 11:30 AM
Venue	Executive Meeting Room

Attendees

- Stroke Medical Director (Chairperson)
- Stroke Program Coordinator (Recorder)
- Emergency Department Director
- Neurology Consultant
- Radiology Manager
- ICU Representative
- Pharmacy Manager
- Laboratory Manager
- Rehabilitation Supervisor
- Nursing Director
- Quality Improvement Manager
- EMS Liaison

Agenda

- Approval of previous minutes
- Annual review of Stroke Program clinical protocols
- Review of annual performance indicators
- Education plan for 2026
- Action items

Discussion Summary

The Committee completed its annual review of all Stroke Program policies and clinical protocols, benchmarking current practice against the latest AHA/ASA recommendations. Minor revisions were approved regarding mechanical thrombectomy eligibility criteria, dysphagia screening documentation, and the telestroke consultation workflow.

The annual performance report was reviewed. Door-to-CT and door-to-needle times remained within organizational targets. The Committee identified opportunities to improve documentation completeness across the care pathway.

The annual multidisciplinary education plan for 2026 was reviewed and approved.

Decisions

- Approved all Stroke Program protocols for the coming year.
- Approved revisions to stroke order sets.
- Continue monthly KPI monitoring.
- Implement an annual competency assessment for all stroke team members.

Annual Clinical Protocol Review

Clinical Protocol Reviewed	Status
Acute Ischemic Stroke Management	Approved
IV Thrombolysis (Tenecteplase/Alteplase) Protocol	Approved with minor revision
Mechanical Thrombectomy Protocol	Approved
Intracerebral Hemorrhage Management	Approved
Dysphagia Screening Protocol	Approved
Blood Pressure Management Protocol	Approved
Stroke Code Activation Protocol	Approved
EMS Pre-notification Protocol	Approved
Transfer/Telestroke Protocol	Approved
Secondary Stroke Prevention Protocol	Approved

The Committee completed the annual review of all Stroke Program clinical policies, protocols, order sets, and care pathways against current AHA/ASA guidelines. Continued use of all protocols was approved, with minor revisions as documented above. Revised protocols take effect immediately upon Committee approval.

Action Items

Action	Responsible	Due Date
Update stroke protocols	Stroke Medical Director	31 Jan 2026
Revise electronic order sets	IT & Neurology	31 Jan 2026
Schedule annual education sessions	Stroke Coordinator	15 Feb 2026
Audit protocol compliance	Quality Department	Next meeting

Next Meeting: February 19, 2026

Meeting Minutes — February 2026

Date February 19, 2026

Attendees

Same committee membership as the January meeting.

Agenda

- Review of previous action items
- KPI dashboard review
- Stroke case review
- Staff education update
- Quality improvement projects

Discussion Summary

The Committee reviewed January performance indicators, summarized below.

Performance Indicator	Result
Door-to-CT	18 minutes (Target ≤ 20)
Door-to-Needle	42 minutes (Target ≤ 45)
Dysphagia Screening Compliance	96%
NIHSS Documentation	95%

Two ischemic stroke cases involving delayed laboratory turnaround were discussed. The Laboratory Department agreed to prioritize stroke specimens going forward.

Education sessions delivered to Emergency Department nurses achieved excellent attendance.

Decisions

- Continue monthly case review.
- Laboratory to implement a rapid stroke specimen workflow.
- Continue education sessions for new staff.

Action Items

Action	Responsible	Due Date
Monitor laboratory turnaround times	Laboratory Manager	Next meeting
Audit NIHSS documentation	Stroke Coordinator	Next meeting
Conduct ED education session	Nursing Education	March 2026

Next Meeting: March 19, 2026

Meeting Minutes — April 2026

Date April 16, 2026

Discussion Summary

Quarterly KPI trends demonstrated sustained compliance with AHA/ASA performance expectations.

The Rehabilitation Department reported that early therapy assessments were completed within 24 hours for 93% of eligible patients.

Pharmacy reviewed alteplase storage, inventory levels, and expiration monitoring.

Decisions

- Continue monthly KPI monitoring.
- Standardize rehabilitation referral documentation.
- Maintain emergency thrombolytic medication availability.

Action Items

Action	Responsible	Due Date
Audit rehabilitation referrals	Rehabilitation	May meeting
Verify medication stock	Pharmacy	Monthly
Update KPI dashboard	Quality Department	Monthly

Next Meeting: May 21, 2026

Meeting Minutes — May 2026

Date May 21, 2026

Discussion Summary

The Committee reviewed patient satisfaction results, discharge education compliance, and follow-up clinic attendance.

Case Management reported improvement in discharge planning processes.

The EMS Liaison reviewed pre-notification compliance and communication with the Emergency Department.

Decisions

- Continue EMS education.
- Improve discharge education documentation.
- Develop patient education materials in Arabic and English.

Action Items

Action	Responsible	Due Date
Update patient education materials	Stroke Coordinator	June meeting
Review EMS compliance	EMS Liaison	Monthly
Audit discharge documentation	Quality Department	June meeting

Next Meeting: June 18, 2026

Meeting Minutes — June 2026

Date June 18, 2026

Discussion Summary

The Committee completed the mid-year Stroke Program performance review. Performance indicators remained compliant with organizational goals, as summarized below.

Performance Indicator	Result
Door-to-CT Compliance	98%
Door-to-Needle Compliance	94%
Dysphagia Screening	98%
VTE Prophylaxis	99%

Quality improvement projects demonstrated measurable reductions in treatment delays.

The Committee discussed preparation for the upcoming AHA accreditation survey, including document review, tracer preparation, and staff interviews.

Decisions

- Continue all active quality improvement initiatives.
- Complete a mock survey prior to the accreditation visit.
- Finalize evidence files for accreditation.

Action Items

Action	Responsible	Due Date
Conduct mock survey	Quality Department	July 2026
Finalize accreditation documents	Stroke Coordinator	July 2026
Complete staff readiness sessions	Education Department	July 2026

Next Meeting: July 16, 2026
