

KING FAHD CENTRAL HOSPITAL (KFCH)

Comprehensive Stroke Program

STROKE INTERFACILITY TRANSFER LOG

Document ID	SU-002-LOG-02	Version	1.0	Year	20__
Responsible Unit	Stroke Program	Review Frequency	Monthly	Coordinator	_____

Parent Policy: SU-002 — Stroke Code Activation — Pre-Hospital and In-Hospital | Companion Protocol: SU-002-PROT-03
 Purpose: Track stroke transfers into and out of KFCH, including LVO/mechanical thrombectomy transfers, acceptance and transport intervals, imaging/information transfer, delays, and outcomes. Use de-identified case IDs in accreditation evidence copies.

A. Transfer Case Log

Case ID	Date	Direction IN/OUT	Origin / Destination	Stroke type / LVO	LKW	NIHSS	IVT status / time	Referral / decision time	Acceptance time	Transport request	Departure	Arrival	Images shared	Reason / indication	Delay / variance	Outcome / disposition

For thrombectomy transfers, link the case to the KFCH Mechanical Thrombectomy Candidate Transfer Checklist and record the locally defined transfer-performance metric (e.g., referral-to-acceptance, door-in-door-out, departure-to-arrival) consistently.

B. Monthly Transfer Performance Summary

Indicator	Numerator / Count	Denominator	Result	Target	Comment / Action
Total stroke transfers IN					
Total stroke transfers OUT					
Transfers for suspected/confirmed LVO/MT					
Transfer cases receiving IV thrombolysis					
Acceptance-time compliance					
Transport activation-time compliance					
Door-in-door-out / local transfer-time compliance when applicable					
Cases with successful image transfer					

Transfers with documented clinical handover					
Transfers with delay/variance					
Transfer delays reviewed and actioned					

C. Delay / Variance Review

Case ID	Delay / Variance	Category	Root Cause	Corrective Action	Owner / Due Date	Closure Evidence

Suggested variance categories: ☐ Acceptance/consultation ☐ Imaging/image transfer ☐ Ambulance/transport ☐ Bed/capacity ☐ Clinical stabilization ☐ Documentation/communication ☐ Other

D. Monthly Governance Review

Monthly data reviewed	☐ Yes ☐ No	Review date	_____
Reviewed with Stroke Committee / IPC	☐ Yes ☐ No	Minutes reference	_____
Stroke Coordinator	_____	Date	_____
Stroke Medical Director / Designee	_____	Date	_____

Document linkage: Supporting evidence for the KFCH Stroke System of Care, EMS-Hospital Stroke System of Care Collaboration Agreement, Stroke Patient Transport Protocol, Mechanical Thrombectomy Candidate Transfer Checklist, Thrombectomy Workflow, Stroke KPI Dashboard, and Annual Stroke Program Evaluation.
