

STROKE UNIT MULTIDISCIPLINARY ROUNDS DOCUMENTATION FORM

Document ID: SU-006-FORM-07 | Parent Policy: SU-006 — NIHSS Assessment, Neurological Monitoring and Dysphagia/Swallow Screening | Version: 1.0 | Controlled Copy

Complete daily during interdisciplinary bedside/team rounds — file in chart each rounding date

Patient Name:	MRN:	Rounding Date:	Hospital Day #:
Stroke Type / Location:	Admission NIHSS:	Current NIHSS:	Unit / Bed:

1. Stroke Core Measure / Quality Checklist

Reviewed daily until each item is complete or documented as not applicable. Aligns with AHA/ASA Get With The Guidelines—Stroke measures and stroke center certification requirements.

Measure	Yes	No	N/A	Responsible
Dysphagia/swallow screen completed before any oral intake	☐	☐	☐	RN / SLP
DVT prophylaxis (mechanical or pharmacologic) initiated	☐	☐	☐	MD/APP / RN
Antithrombotic therapy by end of hospital day 2 (ischemic stroke)	☐	☐	☐	MD/APP
Statin therapy addressed	☐	☐	☐	MD/APP
Atrial fibrillation anticoagulation plan addressed (if applicable)	☐	☐	☐	MD/APP
Smoking cessation counseling provided (if applicable)	☐	☐	☐	RN / MD
Rehabilitation (PT/OT/SLP) assessment ordered	☐	☐	☐	MD/APP
Stroke education provided to patient/family	☐	☐	☐	RN
Delirium screening current and documented (see delirium screening form)	☐	☐	☐	RN

2. Neurological and Medical Status Summary

Item	Status / Notes
Neuro exam trend since last rounds	
Blood pressure goal / current control	
Glucose control	
Temperature / infection surveillance	
Cardiac monitoring findings (e.g., new AF)	
Delirium screen result today (tool + score)	

3. Discipline-Specific Status and Plan

Discipline	Status / Update	Plan for Today / Barriers
Physician / APP		
Bedside RN		
Physical Therapy		
Occupational Therapy		
Speech-Language Pathology		
Pharmacy		
Case Management / Social Work		
Dietary / Nutrition		

4. Team Plan and Discharge Planning

Item	Details
Primary goal(s) for today	
Anticipated discharge disposition (home / acute rehab / SNF / other)	
Estimated discharge date	
Barriers to discharge identified	
Family/caregiver communication today (Y/N, notes)	

Delirium Cross-Reference

If today's delirium screen is positive or the patient has an unresolved positive screen, confirm the Stroke Unit Delirium Screening Form escalation checklist (differential work-up, notification, prevention bundle) has been completed before closing out rounds.

5. Attendance / Sign-Off

Role	Name / Signature	Role	Name / Signature
Attending / APP		Case Management / SW	
Bedside RN		Pharmacy	
Physical Therapy		Dietary	
Occupational Therapy		Other:	
Speech-Language Pathology		Other:
